Product Description

15L Fast Cleaning Digital Ultrasonic Cleaner With Degas Function For Oily Parts

1.Degas Function

The key factor of ultrasonic cleaning effect is the cavitation caused by ultrasonic wave among the liquid. If there is air or other gas in water, it will reduce cavitation in liquid. Degas function is designed for solving this problem to improve cleaning effect. Besides, it will reduce some oxidation on metal material.

2.Application

Using in all kinds of spare parts cleaning including brass component, medical instrument, industrial parts and etc.
